

Resume Placeholder

Deenu Prakash — Data Analyst / Business Analyst

This is a placeholder PDF generated for the portfolio website.

To use your real resume:

1. Export your resume as a PDF from Word, Google Docs, or Canva.
2. Name the file 'resume.pdf'.
3. Replace this file at: assets/resume.pdf

The 'Download Resume' buttons on the site already point to this file path, so no code changes are needed once you replace it.
